Decision Support Systems & Operations Research, Cairo University '26

Cairo, Egypt • +20 127 269 1175 • habiba.em7@gmail.com • [LinkedIn](#) • [GitHub](#) • [Portfolio](#)

PROFILE

Decision Support Systems & Operations Research, Computer Science graduate from Cairo University, ranked among the top 5 in the department. Experienced working across the product lifecycle writing user stories, prioritizing backlogs, and collaborating with developers, designers, and QA through sprint planning and reviews. Comfortable engaging directly with engineering teams thanks to hands-on experience in both data analysis and software development.

TECHNICAL SKILLS

Product & Agile: User Stories & Acceptance Criteria, Backlog Prioritization, Sprint Planning, Agile/Scrum, Jira

Project Planning & Control: CPM/PERT, Earned Value Management, Project Crashing, Risk Identification & Mitigation

Data & Analytics: Python, SQL, Power BI, Tableau, Excel (Advanced), Exploratory Data Analysis

Technical Fluency: Angular, TypeScript, REST APIs, Flask, Database Design, Git/GitHub

Concepts: Stakeholder Communication, Cross-Functional Collaboration, Structured Problem Solving

PRODUCT & AGILE DELIVERY EXPERIENCE

Schedify: Work Scheduling Optimizer | *Team Lead · Requirements, Planning & Delivery* Grad Project, 2025–26

- Led a 5-person cross-functional team from requirements gathering through model design, development, and delivery of an MILP-based workforce scheduling system for up to 1,470 employees.
- Coordinated scope, timelines, and deliverables across technical (algorithm/backend) and non-technical stakeholder needs, translating business requirements into a usable decision-support tool with export functionality.
- Directed structured quality assurance (benchmarking multiple solvers against an exact CBC solver) before final delivery.

AI Fitness App | *Team Member · Agile/Jira-Tracked Delivery*

2025

- Delivered frontend features in a full Jira-tracked sprint environment, participating in sprint planning, stand-ups, and reviews.
- Reviewed and merged teammates' pull requests, with own changes going through the same review process

Rose E-Commerce Platform | *Agile Team Member*

2024 – 2025

- Contributed to a multilingual e-commerce platform delivered across consecutive Agile/Scrum sprints, translating product requirements into working CRUD functionality and form validation.

DATA-DRIVEN DECISION SUPPORT PROJECTS

- **Hotel Booking Demand & Cancellation Modeling (2025)** : Analyzed 50,000+ records; built XGBoost/Logistic Regression models and Power BI dashboards translating findings into pricing decisions.
- **Student Performance & Ames Housing Price Prediction (2025)** : Built predictive models (87–89% accuracy) with Power BI/Tableau dashboards designed for non-technical audiences.

TRAINING & PROFESSIONAL DEVELOPMENT

Project & Product Management Track | *Sprints × Microsoft Summer Camp*

August 2025

Coursework across the full project lifecycle (initiation, planning, execution, monitoring, closure) and Agile & Scrum frameworks.

Product Management Job Simulation | *Electronic Arts (Forage)*

2025

Completed a product management simulation covering feature definition, prioritization, and stakeholder communication.

Structured Problem Solving & Communication | *McKinsey Forward Program*

Completed June 2026

10-week program covering structured problem solving, communication frameworks, and adaptability skill building.

LEADERSHIP & ACTIVITIES

- **HR Committee Member (GDSC), Cairo University** (Sep 2023 – Aug 2024): Coordinated communication, attendance tracking, and task follow-up; recognized with the Best Member Award.
- **Team Lead, Graduation Project (Schedify)**, Cairo University: Led a team of 5 through model design, algorithm development, and application delivery.

EDUCATION

B.Sc. Computer Science, Majoring in Decision Support & Operations Research Computer, Cairo University 2022 – 2026

- Ranked among the top 5 students in the department. Relevant coursework: Project Management, Decision Theory.
